iD Tech Camps - North America's #1 Tech Camp

Dates: 6/7/2009 to 8/21/2009

Contact Elise Wallworth at info@internaldrive.com or call 1-888-709-TECH (8324)

Experience North America's most reputable and distinguished summer technology program. Over 100,000 kids and teens worldwide have learned to create 2D and 3D video games, websites with Flash®, digital movies, C++ and Java programs, iPhone® and Facebook® apps, robots, 3D models and animations with products experts use in their professions. Ages 7-17 who enjoy critical thinking and challenges thrive in this fun and stimulating environment. They also get to meet and work with other students nationwide who share similar interests. These weeklong, day and residential summer camps are located at 60 prestigious universities in the U.S. and Canada. This includes St. Edward's University, U Houston, SMU, Univ. of the Incarnate Word, Stanford, MIT, Princeton, Harvard, UCLA and Emory. For teens who want to immerse in a specific discipline, there are Teen programs: iD Gaming Academy, iD Visual Arts Academy and iD Programming Academy. Continuing Education Units are also available. Alumni can hone their skills year-round with iD 365 - Endless Summer, complimentary online workshops led by live instructors. Save with code TX39.

Threshold: Summer Enrichment for Gifted Learners

Dates: 7/12/2010 to 7/23/2010

Contact Dr. Mary Christopher at mchris@hsutx.edu or call 325-671-2150

The Threshold Program at Hardin-Simmons University is a non-residential, summer enrichment program for gifted learners. In this program, gifted children engage in problem-solving and learning activities that allow them to use their gifts and talents in a safe, inviting environment, while relating to their mental peers.

Wonder-Space Computer and Technology Camp

Dates: 6/7/2010 to 8/20/2010

Contact John Keyes at john@wonder-space.com or call 713-529-2241

At Wonder-Space campers (ages 7-17) receive hands-on experience with computers and technology through a variety of one week programs in Game Design, Media & Graphics, or Engineering & Programming.

At the end of each week, some campers will have built video games, others web pages, others a robot, and others a digital movie with special effects! Meanwhile, other campers learn to assemble computers, create custom Java scripts, edit digital photos, create animated sequences, and more. Throughout the summer, campers can take a variety of courses to develop new skills or take the same course multiple times to hone their crafts.

Wonder-Space is a FULL-DAY day camp because we understand the challenges of getting campers to and from camp every day. Our hours are 8:30-5:00, except on Fridays when camp ends at 3:30. (Extended day options also available.)

Multiple Texas locations.

Mention TAGT Insights to us on the phone and save an additional \$10.

Summer Wonders

Dates: June 21st – July 2nd, July 12th – July 23rd

Contact Karen Sims Langdon at klangdon@AustinGifted.org or call 512-206-4070

Summer Wonders is a nonresidential, full or half-day program that allows students to explore diverse subjects in a challenging, creative environment through an integrative, hands-on non-traditional approach. While topics are academic in nature, they are presented in a fun, creative manner that inspires critical thinking and enables students to solve problems and effect discovery. Content areas include but are not limited to science, math, art, drama, social studies, literature and economics. The program is non-profit with some scholarships offered. Extended care (3PM – 5:30PM) is available by special arrangement. Our enrollment in years past has included international students, children from other states, and a number of children from Texas cities outside Austin, as well as from every school district in and around Austin.
